Summary

I build and operate production APIs and customer-facing software. My experience includes authenticated application flows, tenant-aware access control, TypeScript and PostgreSQL services, release verification and production incident response.

Skills

- TypeScript, Next.js, Node.js
- OAuth, tenant-aware access
- PostgreSQL, Docker
- Monitoring, diagnostics

Professional Experience

Founder / Product Engineer / Systems Lead

Technomancy IT LLC

Present

- Build and support production applications and APIs, including authenticated flows and tenant-aware access controls.
- Deliver access-controlled SaaS connectors and own client software through deployment and production support.

Senior Systems Engineer / Datacenter Architect

Front Range Internet Inc.

2015 - 2020

- Developed and replaced billing software and maintained hosted PHP and JavaScript services.
- Built NOC diagnostics and handled escalations across hosted applications and infrastructure.

Systems / Software Engineer

Office Evolution

2014 - 2015

- Built a Linux routing system that mapped individual Wi-Fi access to the correct customer office VLAN.
- Automated router and firewall provisioning with Node.js and built front-desk tools for common Wi-Fi support tasks.

Network & Systems Engineer

PlumChoice / Everon

2012 - 2014

- Troubleshot client networks and endpoints, served on call, and built reusable diagnostics for recurring support issues.

• Worked with business owners and end users through incident handoffs and escalations.

Infrastructure and Systems Focal

IBM

2010 - 2012

• Coordinated infrastructure changes and incidents across enterprise application and infrastructure teams.

• Wrote Perl, Bash, VBA and PHP scripts and built an internal backup tool used to reduce licensing costs.

Selected Projects

Technomancy IT Platform

Independent product

• Built a TypeScript, Next.js and PostgreSQL client operations platform with separate client and staff access.

NuPrice

Client engagement

2019 - 2021

• Built and operated customer account, subscription and support workflows alongside marketplace repricing.

Education

Front Range Community College

Computer Science coursework

2011 - 2013
